

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

STATED MEETING, APRIL, 19th, 1842.

VICE PRESIDENT MORTON in the Chair.

WRITTEN COMMUNICATION.—Mr. Phillips presented a communication from J. G. Anthony, Esq. of Cincinnati, Ohio, transmitting a Catalogue of the Terrestrial and Fluvatile Shells of Ohio; which was ordered to be placed on file.

BUSINESS BY SPECIAL RESOLUTION.

By special permission, the committee on Dr. Hallowell's paper, read April 5th, describing a new genus of Serpents from Western Africa, offered a report in favour of publication, which was accepted.

A resolution was then adopted, urging the Zoological Committee to take immediate measures for the preservation of the remains of the Collection of Insects lately returned by Dr. Harris.
